

QCS IS GROWING!

With the help of Singer Equities, QCS is expanding and increasing service capacity in several markets!

Effective February 1, 2019, Virginia Carolina Belting in Virginia, North Carolina, and Tennessee will merge into Quality Conveyor Solutions.

In addition, the belt service capabilities currently held by RW Connection in Pennsylvania will also begin to transition into the QCS family.

We welcome this opportunity afforded us by Singer Equities to expand our geographic reach, as well as market penetration.

Current QCS management stays fully in place, and will run as it has since the beginning. Aaron Atwell, Bill Bettridge, Geoff Emery, JR Perdue, and Doug Stanley remain in existing roles to continue to manage the new expanded QCS.

Expect to see more growth from QCS in the near future. Stay tuned.
